

SCANNING SERVICE

Are your photos secure? Easily accessible? Can you share all of your photos and memories with your family? Or are your photos "stored" in such a way that it makes sharing them impossible?

With my scanning service, you can put all of your photos into beautiful projects you can share with your family for years to come.

My scanning service offers:

- Peace of mind knowing you have digital back up for your photos in the event they fall prey to fire, water, hurricanes, tornados and other dangers.
- Ability to easily share photos with all of your friends and family through email or various photo gifts.
- A simple way to get your photos uploaded to the computer and ready for making unique, personalized storybooks, page prints, and countless other photo gifts.

With my service, your photos are completely safe and scanned right in your own home or mine, or your business office, during a personal appointment. I can scan all of your photos in a fraction of the time it takes with traditional flatbed scanners. You will receive a CD of your scanned images at the end of the appointment. And as a Creative Memories Consultant, I offer additional services, products, and recommendations as to how you can complete your personal photo projects.

Partnering with Kodak and Creative Memories, I offer the most reliable expertise in the photographic industry. You will save both time and money with me!

Check out this simple comparison:

# OF PHOTOS	FLATBED	MY SCANNING SERVICE
100	8 HOURS	10 MINUTES
500	33 HOURS	1 HOUR
1000	66 HOURS	2 HOURS

Pricing: (the industry average for scanning is .59 cents per scan)

SCANS	PRICE
0-99	\$0.39/each
100-499	\$0.29/each
500 +	\$0.19/each

*Image editing and other project completion services offered for \$20 - \$40 an hour. Complimentary consultation hour included with most services.
